## Your one-stop contact

» We recommend – the CUP CONCEPT! «

Every aspect of our service offers you clear benefits. We know that a reusable approach is not only profitable but also sustainable.

Our services are thought out down to the smallest detail. The benefits they offer you are quite varied, which is why we would like to explain them to you in more detail.

### Sustainability

» Interconnected processes are ecologically very efficient. «

Reusable plastic products are more sustainable than single use products. They offset the carbon footprint of the disposable product after just five uses.

A reusable product can be utilised up to 400 times before it is recycled and processed into a new plastic product.

A complete solution from consulting, financing and production to logistics and efficient cleaning makes sense and saves time, money and resources.

### Food safety

» Maximum quality that you can completely rely on. «

Tested products that you can completely rely on. All of our products meet the legal requirements of the German Consumer Goods Ordinance.

Food-safe materials are not harmful to health and preserve the original food ingredients, as well as food smell and taste.

### Innovative dishwashers

» Hygienic cleaning is second nature to us. «

CUP CONCEPT cleans its products in its service centres using state-of-the-art dishwashers equipped with a system that has been specially adapted to the requirements for washing and drying reusable plastic cups and tableware.

In addition, a special device enables very good results to be achieved in the process for drying plastic cups and tableware.

### Features

» Long service life, tested quality and the best features. «

All CUP CONCEPT products are of the highest quality and always display the same great features:

- dishwasher-safe
- scratch-resistant
- stable and resistant to breaking
- long service life
- retain their shape
- can be stacked and unstacked as needed
- finished to a high quality
- tested quality

### Made in Europe

» Manufacturing and printing at our own company in the heart of Europe. «

All manufacturing and printing processes for our reusable products are conducted exclusively in Europe.

- short delivery distances
- sustainably produced

Thanks to the four different printing methods we use, we are able to print any motif on our reusable products.

# Everything from a single source

» CUP CONCEPT lets you get the most out of your ideas! «

CUP CONCEPT is at your side as a central contact partner for everything from personal consultation to production, planning, logistics and services for cleaning your reusable plastic cups and tableware. We are available on a regional, national and international level.

## Consultancy

» CUP CONCEPT brings your ideas to life. «

Get a personal consultation from our team on products, financing, handling, logistics and much more:

- wide range of reusable products, with features and special solutions developed in-house
- various options for printing on reusable cups and tableware
- complete solutions for printing, storage logistics, transport and cleaning

## Rent/Purchase

» CUP CONCEPT ticks all the boxes. «

Our reusable products can either be purchased or rented, depending on your needs and the given occasion.

For example, unprinted products from our range can be rented for individual events. For delivery, you can choose either self-collection or our delivery/collection service.

Reusable products that are purchased can also be printed.

## Production/Printing

» CUP CONCEPT – all-round expertise. «

Our entire range of products is manufactured in Europe. The production facility is located at our Austrian parent company FRIES Kunststofftechnik GmbH (Sulz, Austrian state of Vorarlberg). The printing plant is located in Gernrode (German state of Saxony-Anhalt).

The following types of printing are possible depending on the print motif and product in question:

- screen printing
- IML photo printing
- digital printing
- pad printing

## Logistics

» CUP CONCEPT – stores, delivers and cleans your reusable plastic products. «

CUP Concept has a network that extends all across Europe. Each location serves as a cleaning centre and a storage and rental station.

We offer a delivery/collection service with our own fleet of vehicles and staff. This means we can make optimal use of our network and, if necessary, also store and manage your reusable cups and tableware at our locations.

## Wash-up

» CUP CONCEPT – washes your reusable products hygienically clean. «

We use state-of-the-art large-scale industrial dishwashers at our service centres. We can handle events on a large scale, and even entire tours through (Central) Europe, and we consistently clean reusable products in a sustainable and hygienic manner.

- complex cleaning processes offer guaranteed hygiene
- comprehensive coverage with service stations in Central Europe
- high performance and low resource consumption make our stations sustainable

## Consultancy

» CUP CONCEPT brings your ideas to life. «

Our extensive experience makes it possible for us to implement your ideas efficiently and lucratively. Get to know our team and let's start a win-win partnership!

### One partner – numerous benefits.

With our outstanding range of products and our options for financing, handling and logistics, CUP CONCEPT offers many possibilities that we would like to explore with you.

#### What kind of product are you looking for?

We offer a wide range of reusable cups and tableware that we developed ourselves. We are happy to take the requirements of your event into account in order to offer you the best products for your needs, with all types of special solutions.

#### Would you like to use printed or unprinted plastic products?

It is possible to print our cups and almost our entire range of reusable tableware using various printing techniques. After you send us your printing details, our consulting team will visualise your reusable product. Our best-seller – the Design Cup – can also be designed via our online shop. The 3D Cup Designer is a tool that can be used to configure reusable cups for digital printing.

#### Rent or purchase?

Unprinted reusable products can be rented, and we are happy to provide you with a solution for small-scale events as well.

#### Storage and transport.

We offer a complete solution consisting of products, printing and all logistics operations, including storage, transport and cleaning.

#### Cleaning empties.

We have experience with very large events and concert tours – for example AC/DC, Helene Fischer and many other artists and acts. Here, we managed everything from transport and the screening and removal of damaged products to the timely cleaning of returned reusable products.

### Facts

- WIN-WIN partnership
- experience
- personal consultation
- customised solutions

## Rent or purchase?

» CUP CONCEPT ticks all the boxes. «

Naturally, we offer special solutions for various events and purposes for both small and large customers.

### Renting reusable plastic products

Plan events of all sizes together with us. We can offer you a wide selection of reusable plastic products. These include both reusable cups and reusable tableware.

Our delivery and collection service allows you to have your desired products delivered directly to your event venue. Alternatively, you can also collect the products yourself.

For major events, we provide vehicles and personnel for relevant logistics and on-site services.

### Purchasing reusable plastic cups and tableware

Printed reusable products are extremely popular and comparatively inexpensive fan merchandise. You can use them to advertise your brand, your event and your club or association.

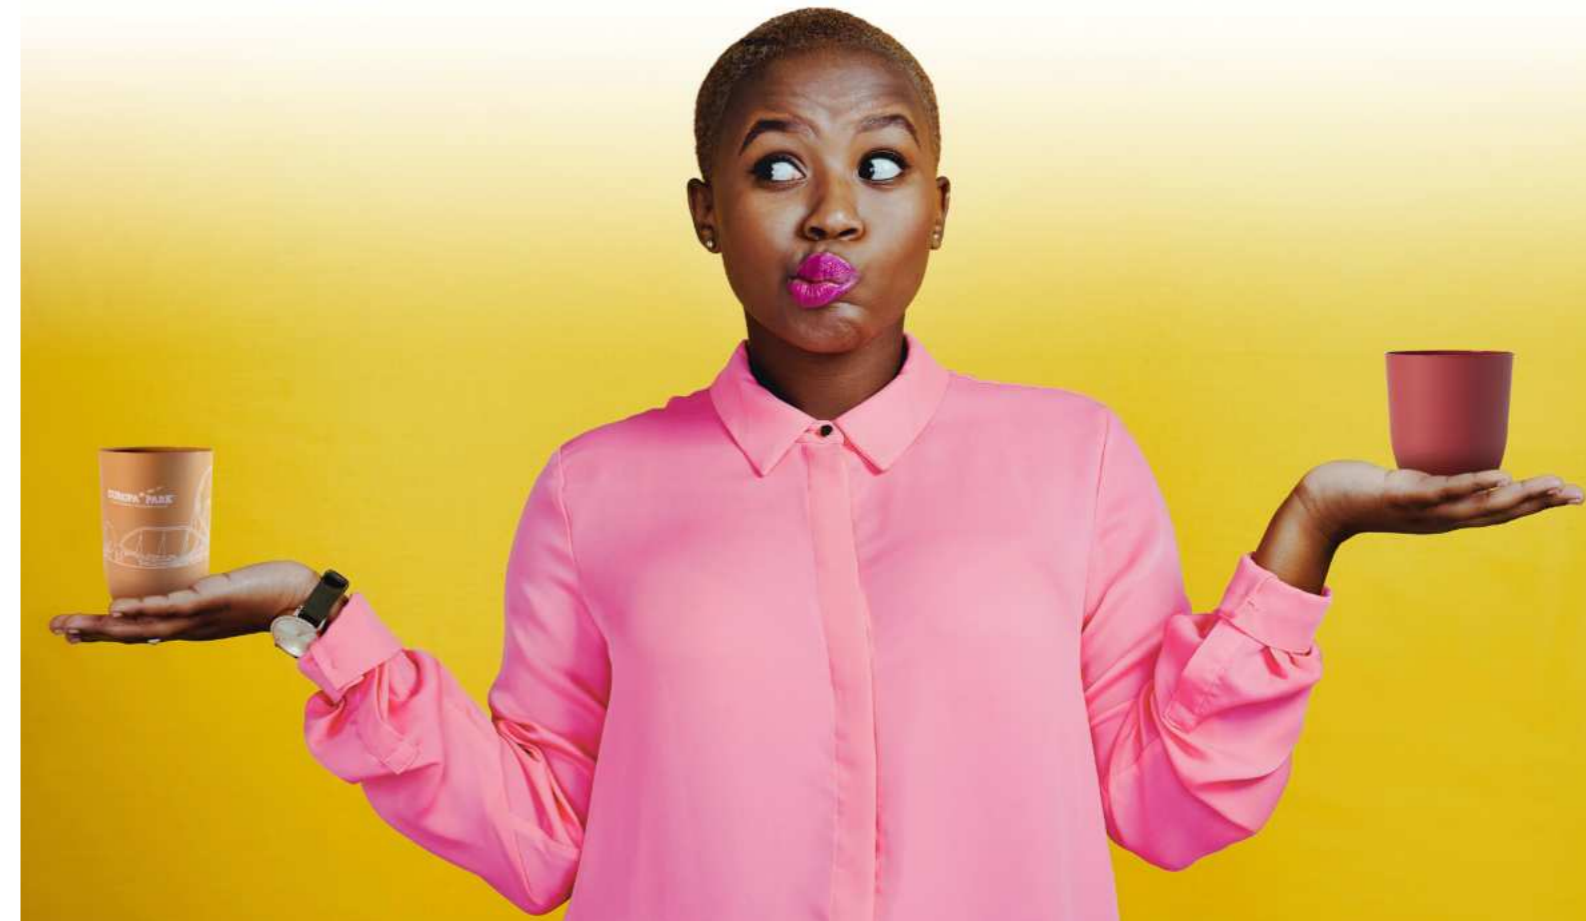

### Merchandising

We acquire licences from national and international bands, artists and major music and sports events, and we accompany artists throughout their entire tour. Thanks to our tight-knit German and international network, we are able to supply reusable cups to event venues throughout Europe.

### Facts

- aligned concepts
- flexible rentals
- on-site service
- merchandising

## Production / Printing

» CUP CONCEPT – all-round expertise! «

Discover our varied range of reusable products manufactured and printed exclusively in Europe. Four printing techniques mean maximum flexibility with products that are always of the highest quality.

### 1. Screen printing:

With screen printing, the ink is printed on the cup by pushing it through a fine screen. This enables a precise and long-lasting ink application, which is ideal for achieving high-quality permanent printing on reusable cups.

Particularly suitable for:

- logos
- lettering
- illustrations

### 2. In-mould labelling (IML) photo printing:

With the IML printing technique, your motif is printed on a plastic film that is then inserted into an injection moulding machine during the cup production process. Here, the film is encased in a plastic layer. The result is a smooth and rimless surface that is impermeable to liquid. This method is perfect for:

- photographs
- motifs with a large variety of colours
- cup wrap motifs

### 3. Digital printing:

Our digital printing method enables cost-efficient printing of our Design Cups, even in small numbers, and without any need for a carrier material or stencil. Digital printing enables the following:

- photo-realistic motifs
- fast delivery
- small print runs

### 4. Pad printing:

Pad printing is utilised for reusable tableware. Pad printing makes it possible to transfer the finest lines and delicate motifs to uneven, concave and convex surfaces. Particularly suitable for:

- logos
- lettering
- simple motifs

### Facts

- Made in Europe
- innovative design
- various printing techniques
- online configuration

## Logistics

» CUP CONCEPT – stores, delivers and cleans your reusable plastic products. «

CUP CONCEPT has numerous locations and partners in Central Europe – for example in Germany, Austria, Belgium, Netherlands, Luxembourg, the Czech Republic and Switzerland. We manage your major event with no problems: we're ready for the challenge!

### Pool solution for purchased products

We are happy to offer you a pool solution for your reusable products. Our full-service package includes not only manufacturing and printing, but also delivery, collection, hygienic cleaning and storage of reusable cups and tableware.

The key difference here as compared to renting is that you always retain ownership of the reusable cups and tableware, even as we handle logistics and management operations and product-care processes. We also screen out and remove damaged products and replace them with new ones. This pool solution is made possible by our comprehensive network across central Europe, our own fleet of vehicles and our outstanding staff.

### Delivery/Collection of rented products

When you rent our products, we provide you with unprinted cups and tableware from our own pool. With an order of 2,000 or more, we also manage logistics and cleaning, whereby you also always have the option of collecting the rented cups and tableware yourself and then returning them after your event.

### Facts

- pooled solution
- self-collection
- delivery and collection service
- europe-wide network

## Cleaning

» CUP CONCEPT – washes your reusable products hygienically clean. «

Our dedicated and conveniently located cleaning stations are readily available. We can handle events on a large scale and clean your reusable products sustainably and hygienically using state-of-the-art technology.

### Our complex wash-up processes offer guaranteed germ-free hygiene!

Every CUP CONCEPT service station uses a state-of-the-art industrial washing system that has been specially further developed in order to ensure effective cleaning of reusable plastic cups and tableware.

### Comprehensive network of cleaning stations

CUP CONCEPT and its partners currently operate 15 service stations in Central Europe. Each location is also a service station, which means CUP CONCEPT provides an ideal network of cleaning and storage centres.

### Guaranteed sustainability and environmental compatibility

Our tight-knit network means we can always choose the shortest route for deliveries and collections. This is important in terms of environmental compatibility, which is also a major consideration in our cleaning operations for reusable plastic products.

A range of intelligent concepts and control mechanisms optimises cleaning and hygiene performance and ensures that our large dishwashers work in a sustainable and efficient manner. Our dish washing systems exhibit the highest performance in all areas – and also the lowest consumption figures.

This means:

- low water consumption
- low energy consumption
- low detergent consumption

### Facts

- highest quality
- hygienically flawless
- optimised concept
- low resource consumption

## Design Cup

» The classic cup that adapts to your event. «

Our Design Cup is the timeless favourite of our customers. It comes in six different sizes and three different variations, which means it can be used for every type of event.

### The Transparent Design Cup

The Transparent Design Cup impresses with its variety. It comes in six different sizes and is available in conjunction with all three printing techniques. Digital printing can be used for small print runs and ensures a fast printing process. Screen printing refines every cup by lending it an attractive design, while IML photo printing delivers a radiant colour experience.

### The Crystal Clear Design Cup

As its name suggests, the Crystal Clear Design Cup is as clear as glass. Made of polycarbonate, it has a simple design and is light, but it nevertheless displays dimensional stability and retains its shape. In conjunction with screen printing, it makes every motif shine.

### The Glitter Design Cup

The Design Cup with integrated glitter radiates a sense of lightness, elegance and fine design. The screen printing technique can be used with this cup to make your logo or lettering sparkle.

### Sizes

- 0.1 l
- 0.2 l
- 0.25 l
- 0.3 l
- 0.4 l
- 0.5 l

### Features

- can be stacked and unstacked as needed
- finished to a high quality

close-up view:  
"glitter" and "crystal Clear"  
variants

### Facts

- all-star favourite
- six sizes
- retains its shape
- transparent, glitter, crystal clear

## Arena Cup®

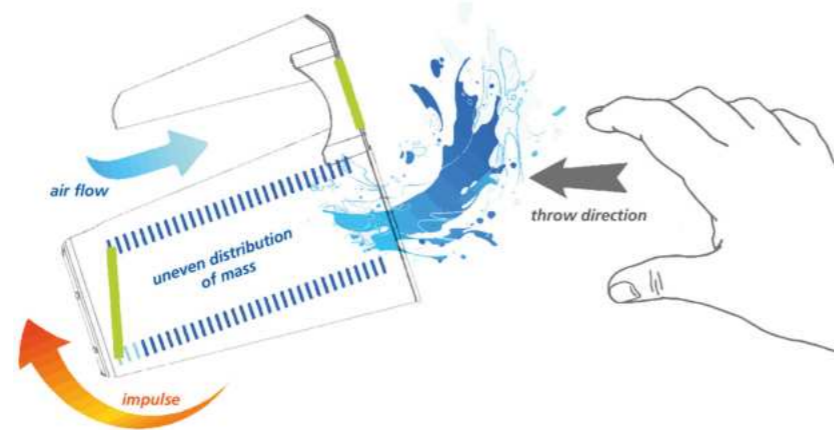

» Safe and environmentally friendly. «

The innovative Arena Cup® stadium cup represents a milestone in the supply of cups for modern sports venues. It is the only reusable plastic cup in the world that empties while still in flight, should it be thrown with a drink in it. Your logo can be adorned on the cup using the screen printing technique, while IML photo printing offers a larger advertising surface with intense colours.

### How it works

The sloping base of the cup leads to an uneven distribution of mass, which in turn causes unstable flight behaviour and an angular momentum after the cup is thrown, which leads to the liquid spilling out. The wide surface between the handle and the cup body reinforces this movement by creating an air stream and enables a safe landing on the side of the cup rather than the edge.

This special design ensures that the Arena Cup® empties out when it's still in the air if it's thrown while containing a drink. Targeted throwing and throwing over a longer distance while filled are therefore almost impossible.

### Size

- 0.5 l

### Facts

- can be stacked to save space
- handles can be placed into each other
- unstable flight behaviour
- safe to use in sports stadiums

Uneven distribution of mass due to the sloping base.

The surface between the handle and the cup body supports the turning movement.

The special shape of the handle makes it possible to carry as many as four cups in one hand.

## SL Cup

» Stability meets lightness. «

The SL Cup boasts a lightweight design but is also very stable, which makes it a truly impressive cup. The amount of plastic used to manufacture it is also lower than in other cups, which reduces costs.

However, thanks to its innovative design, there's no loss of quality. The rounded bottom edge ensures that the light reusable cup is stable and safe. The circumferential stacking edge also serves as a filling mark, which is then even easier to recognise. The rolled rim on the upper edge of the cup ensures enjoyable drinking.

### Printing

The SL Cup can be printed using the IML photo printing technique, which makes it possible to encase almost the entire cup and get it to shine in vibrant colours. The technique is perfect for decorating the cup with photos, powerful images and the coolest designs.

### Sizes

- 0.25 l
- 0.3 l
- 0.4 l
- 0.5 l

### Rolled rim

### Base

- rolled rim ensures enjoyable drinking
- outer circumferential stacking edge

- rounded bottom edge
- safe and stable

### Facts

- lightweight
- dishwasher-safe
- four sizes
- unbreakable

## Vending machine cup

» Reusable solution for vending machines. «

Thanks to its sophisticated design, the reusable vending machine cup is compatible with practically all existing vending machine models.

### Enabling the switch to a sustainable solution

The reusable vending machine cup from CUP CONCEPT sends a message regarding sustainability. The coffee cup enables a quick and easy switch from disposable cups in coffee machines to a sustainable, reusable solution. In most cases, there is no need to modify the existing coffee machine.

Along with the reusable vending machine cup, we are also addressing another key issue that generally makes such a switch-over difficult: the logistics of cleaning and resupplying the reusable cups – all of which we manage for our customers.

### Features

The reusable vending machine cup is available in the standard colours of **coffee** and **black**, and in the standard size of 0.18 litres. The screen printing method can be used to print your logo, advertising message or slogan on the cup. For orders of 5,000 or more, we will dye the entire cup in the colour of your choice.

### Size

- 0.18 l

### Facts

- compatible with practically all vending machines
- can be used up to 400 times
- safe
- printable

- printing of logos or lettering using the screen printing process
- uniform colour of choice for all cups when large quantities are ordered

## Hot to Go Cup

» The design reusable cup for hot drinks. «

The attractive design was created especially for all types of hot drinks, such as coffee, tea, mulled wine and punch. High-quality motifs can also be printed on Hot to Go Cups.

### Features

All Hot to Go Cups are made of polypropylene and are available in the sizes 0.2 or 0.3 litres. There are three standard colours: **coffee**, **mint** and **black**. These reusable cups are available for purchase and can be printed on using the screen printing or IML photo printing method.

It is also possible to purchase reusable lids with Hot to Go Cups. The lid comes in one size and fits both reusable cup sizes.

### Hot to Go Cup – rentals

We also offer rentals of Hot to Go Cups in the colour **bordeaux**. It makes particular sense to rent reusable cups for one-time events or when reusable cups are only needed at irregular intervals.

### Sizes

- 0.2 l
- 0.3 l

### Facts

- high-quality matt look
- both sizes are stackable
- reusable lids
- CE certified

- reusable cup lid fits both sizes
- cup and lid are both completely dyed throughout

- high-quality matt look for all colours
- colour of choice option available for order quantities of 5,000 or more

## Pitcher

» The Pitcher – thirst quencher with style. «

The Pitcher holds 1.5 litres and is perfect for serving refreshing drinks. It is made of high-quality polypropylene, which means it's just as durable and long-lasting as our reusable cups.

### Features

The Pitcher has a lid that fits well and which can be opened and closed by turning it. The Pitcher's reinforced handle makes pouring a piece of cake, while its unique shape means several Pitchers can be stacked inside each other in a space-saving way.

### Size

- 1.5 l

- lid with a grooved grip ensures greater stability and easy turning
- large openings in the lid enable no-spill pouring
- V-shape design for space-saving stacking
- reinforced handle ensures stability when pouring and carrying

### Facts

- can be stacked to save space
- no-spill pouring
- optional lid
- attractive design

## Reusable plates

» The classics from the range of reusable tableware. «

Specially designed for use at events, the innovative reusable plates particularly stand out with their modern design. Thanks to the high-quality plastic used, these plates are both robust and beautifully shaped.

### Features

The unbreakable reusable plates are perfect for presenting all kinds of dishes. They are available in the standard colour of **pure white** and in three in different sizes.

### Sizes

- soup plate Ø 20 cm
- flat plate Ø 18 cm
- flat plate Ø 24 cm

can be stacked  
to save space

smooth surface for  
optimal cleaning

can be pad-printed  
on request

### Facts

- elegant design
- retain their shape
- resistant to breaking
- high-quality texture and feel

## Bowls

» Our all-rounders can be used in many different ways. «

The reusable bowls can be put to use in all areas of the catering industry. Whether it's for soups, salads or a main course, these high-quality plastic bowls offer a sustainable alternative to single-use bowls.

### Features

Our attractive reusable bowls are made of robust polypropylene (PP) and offer top quality combined with well-thought-out details. They are lighter than metal and porcelain bowls, but nevertheless display an extremely high level of dimensional stability. Their smooth inner surface not only makes them pleasant to look at and touch; it also makes the eating experience that much more enjoyable.

### Lids

Our optionally available reusable lids ensure that dishes are securely closed. They are available in different sizes for **0.6 l**, **0.9 l** and **1.3 l** bowls, and the grooves in the lids ensure that the bowls can be securely stacked.

### Sizes

- 0.6 l
- 0.9 l
- 1.3 l

### Standard colours – purchase

light green

blue

dark green

### Standard colour – rent

- can be pad-printed on request

- smooth inner surface for optimal cleaning
- matt outer surface

- lid with secure closure

### Facts

- dishwasher-safe
- can be used to freeze food
- can be stacked to save space
- microwaveable

## French fries bowl & Snack plate

» Environmentally friendly and practical. «

Thanks to their modern design, the snack plate and the French fries bowl offer the perfect solution for serving tasty snacks between meals, or anytime. Both of these reusable products can be stacked to save space, and both can also be printed on using the pad printing technique.

### Features

The plastic snack plate and French fries bowl are available for purchase in the colours **black**, **pure white** and **light green**, and to rent in the colour **pure white**.

### Sizes

- fries tray 11.1 x 20.1 x 3.5 cm (W x L x H outside)
- snack serving tray 15.5 x 25 x 1.6 cm (W x L x H outside)

### Standard colours

smooth inner surface for optimal cleaning      can be pad-printed on request

### Facts

- lightweight
- retain their shape
- resistant to breaking
- can be stacked to save space

## Reusable cutlery

The classic reusable cutlery for your event. «

Our sturdy all-purpose plastic cutlery complements the range of reusable tableware. This cutlery was specially developed for use at events, and its simple design makes it perfect for any type of event.

### Features

CUP CONCEPT reusable cutlery has a distinctively high quality with well-thought-out details. Made from sustainable bio-PP.

### Dimensions

- knife
- fork
- spoon
- teaspoon / dessert spoon

### Standard colour

### Facts

- lightweight
- resistant to breaking
- extra stability
- made from bio-PP

# Unbeatable!

» The range that covers ALL requirements. «

We offer a wide range of cups and tableware for every occasion, which means you'll always find the right solution with us.

## Design Cup

The classic one! Robust, cost-effective and used millions of times for serving beer, soft drinks and many other types of beverages.

**Material:** Polypropylene (PP)  
Polycarbonate (PC)

sizes	Ø top	Ø bottom	height
<b>0.1 l</b>	54 mm	42 mm	76 mm
<b>0.2 l</b>	64 mm	51 mm	117 mm
<b>0.25 l</b>	68 mm	53 mm	128 mm
<b>0.3 l</b>	72 mm	56 mm	132 mm
<b>0.4 l</b>	79 mm	61 mm	144 mm
<b>0.5 l</b>	83 mm	62 mm	155 mm

*transparent, crystal clear, glitter*

## Arena Cup

With its patented sloping base, there is no danger if it is thrown – the cup automatically empties out when it's in the air.

**Material:** Polypropylene (PP)

size	Ø top	Ø bottom	height
<b>0.5 l</b>	89 mm	67 mm	141 mm

*transparent*

## SL Cup

The SL Cup combines a light-weight design with dimensional stability – and it's also unbreakable.

**Material:** Polypropylene (PP)

sizes	Ø top	Ø bottom	height
<b>0.25 l</b>	80 mm	65 mm	86 mm
<b>0.3 l</b>	80 mm	63 mm	102 mm
<b>0.4 l</b>	85 mm	65 mm	122 mm
<b>0.5 l</b>	90 mm	68 mm	137 mm

*transparent*

## Vending machine cup

The reusable vending machine cup is compatible with most existing hot drink vending machines.

**Material:** Polypropylene (PP)

size	Ø top	Ø bottom	height
<b>0.18 l</b>	70 mm	38 mm	97.7 mm

*coffee, black*

## Hot to Go Cup

The Hot to Go Cup is the perfect reusable cup for all hot drinks.

**Material:** Polypropylene (PP)

sizes	Ø top	Ø bottom	Height
<b>0.2 l</b>	79 mm	47 mm	84 mm
<b>0.3 l</b>	79 mm	47 mm	113 mm

*coffee, mint, black (purchase)  
bordeaux (rent)*

## Hot to Go Cup – Lid

The best alternative for hot drinks on the go! The reusable lid for the Hot to Go Cup. Uniform size means the lid fits both cup sizes.

**Material:** Polypropylene (PP)

sizes	Ø	height
<b>0.2 l</b>	83 mm	16 mm
<b>0.3 l</b>	83 mm	16 mm

*grey*

## Pitcher

The Pitcher offers the benefit of being able to serve large amounts of refreshing drinks directly at the table.

**Material:** Polypropylene (PP)

size	Ø top	Ø bottom	height
<b>1.5 l</b>	116 mm	93 mm	218 mm

*transparent matt*

## Pitcher lid

The lid for the Pitcher ensures no-spill pouring. The grooved grip makes it easy to turn and remove the lid.

**Material:** Polypropylene (PP)

size	Ø	height
<b>1.5 l</b>	116.26 mm	49 mm

*transparent matt*

## Allround Cup

A true all-rounder! This cup can be used for all kinds of drinks: beer, soft drinks, cocktails,...

**Material:** Polypropylene (PP)

sizes	Ø top	Ø bottom	height
<b>0.2 l</b>	78 mm	60 mm	90 mm
<b>0.3 l</b>	82 mm	60 mm	113 mm
<b>0.4 l</b>	86 mm	60 mm	140 mm

*transparent*

## Champagne glass

The plastic champagne glass is perfect for upscale occasions and high-quality drinking pleasure.

**Material:** Styrene acrylonitrile copolymer (SAN)

size	Ø top	Ø bottom	height
<b>0.1 l</b>	62 mm	64 mm	200 mm

*crystal clear*

## Cocktail Cup

Experience the difference! Visually indistinguishable from glass, guaranteed safe, outstanding handling. Developed by professionals for professionals!

**Material:** Polycarbonate (PC)

size	Ø top	Ø bottom	height
<b>0.3 l</b>	82 mm	56 mm	126 mm

*crystal clear*

## Event Cup

Alternative with an elegant appearance! Because their handles can be tucked into each other, these CUPS make it possible to easily transport several drinks in one hand.

**Material:** Polypropylene (PP)

sizes	Ø top	Ø bottom	Height
<b>0.3 l</b>	75 mm	55 mm	131 mm
<b>0.4 l</b>	82 mm	60 mm	143 mm
<b>0.5 l</b>	86 mm	63 mm	167 mm
<b>1.0 l</b>	118 mm	90 mm	183 mm

*transparent*

## Ice Cup

Ice Cup with frosted surface. Cool appearance and an extraordinary texture and feel.

**Material:** Polypropylene (PP)

size	Ø top	Ø bottom	height
<b>0.3 l</b>	72 mm	56 mm	132 mm

*frosted*

## Kölsch Cup

The Kölsch Cup is the ideal companion for shard-free events – and not just during Carnival! Perfect for long drinks as well.

**Material:** Polycarbonate (PC)

size	Ø top	Ø bottom	Height
<b>0.2 l</b>	50 mm	48 mm	142 mm

*crystal clear*

## Champagne flute

No more breaking! The light-weight champagne flute is a one-piece unit and an outstanding alternative when safety and weight are paramount! Crystal clear, robust and stable.

**Material:** Polycarbonate (PC)

size	Ø top	Ø bottom	height
<b>0.1 l</b>	58 mm	60 mm	187 mm

*crystal clear*

## Shot glass

The unbreakable plastic shot glass is the perfect sustainable alternative for the next party.

**Material:** Polypropylene (PP)  
Polycarbonate (PC)

size	Ø top	Ø bottom	Height
<b>0.04 l</b>	33 mm	43.6 mm	53 mm

*transparent, crystal clear*

## Super Cup

Maximum turnover! The handles can be tucked into each other, which makes it possible to transport as many as four cups in one hand. Shorter lines, fewer individual payment transactions.

**Material:** Polypropylene (PP)

sizes	Ø top	Ø bottom	height
<b>0.3 l</b>	72 mm	51 mm	140 mm
<b>0.4 l</b>	86 mm	61 mm	134 mm
<b>0.5 l</b>	84 mm	64 mm	166 mm
<b>1.0 l</b>	110 mm	87 mm	175 mm

*transparent*

## Wine cup

The wine goblet made of crystal clear plastic is available in two sizes (0.1 l & 0.2 l). High-quality materials guarantee stylish drinking pleasure.

**Material:** Styrene acrylonitrile copolymer (SAN)

size	Ø top	Ø bottom	height
<b>0.2 l</b>	72 mm	65 mm	174 mm

*crystal clear*

## Wheat beer cup

Unequalled and perfect for your party! Authentic and very beautifully shaped wheat beer cup with a pleasant drinking rim. Very robust.

**Material:** Styrene acrylonitrile copolymer (SAN)

size	Ø top	Ø bottom	height
<b>0.5 l</b>	83 mm	71 mm	210 mm

*crystal clear*

## Reusable plates

Our classic plates combine elegant design with stability – perfect for your next event.

**Material:** Polypropylene (PP)

sizes	Ø	height
<b>18 cm</b>	180 mm	12.5 mm
<b>24 cm</b>	240 mm	16.5 mm

*pure white*

## Soup plate

Our soup plate is impressively lightweight and resistant to breaking. The glossy surface refines every dish.

**Material:** Polypropylene (PP)

size	Ø	height
<b>20 cm</b>	200 mm	35 mm

*pure white*

## Bowl

The reusable bowl can be put to use anywhere. The bowls are available in three different sizes and can be stacked to save space.

**Material:** Polypropylene (PP)

sizes	Ø top	Ø bottom	height
<b>0.6 l</b>	157 mm	120 mm	55 mm
<b>0.9 l</b>	157 mm	120 mm	77 mm
<b>1.3 l</b>	204 mm	160 mm	64 mm

*light green, blue (purchase)  
dark green (rent)*

## Bowl lid

Transparent lid; the small one fits on both the 0.6 l bowl and the 0.9 l bowl. There is a separate lid for the 1.3 l bowl.

**Material:** Polypropylene (PP)

# Unbeatable accessories

» Expansion of the product range for flexible handling. «

Our products simplify handling reusable cups and tableware, offering flexible solutions for dishwashing, storage, and transport.

## Cleaning rack

The cleaning rack without a separator can be filled with all different kinds of cups. The height of the basket can be adjusted to the height of your reusable products. A holding grid is also available as an option.

size	rack type
500 x 500	Basic

grey, blue

## Wine cup cleaning rack

This rack can hold 36 wine goblets. The finished rack is pre-adjusted to the height of the wine goblets and can be placed directly into the dishwasher.

size	rack type
500 x 500	Wine goblet

grey, blue

## Wheat beer cup cleaning rack

The rack for wheat beer cups is perfectly aligned with the size and shape of our wheat beer cups. It can hold 25 wheat beer cups, making it perfect for use in dishwashers, for storage and for transport.

size	rack type
500 x 500	Wheat beer cup

grey, blue

## Champagne flute cleaning rack

This rack can securely hold 49 champagne flutes, making it an outstanding space-saver. It has a practical lightweight and secure design and lets enough water through to ensure the flutes are hygienically cleaned.

size	rack type
500 x 500	Champagne flute

grey, blue

## Transport boxes

Our stable and ergonomic transport boxes can be used to transport and store reusable cups and tableware safely and easily. Lid is optionally available.

fits on Euro pallets
dimensions 400 x 420 x 600 mm with lid 400 x 440 x 600 mm
food-safe
ventilated
transparent lid
red box

## Transport box seals

The transport boxes also come with seals as an option. These seals are used to enable a clear distinction to be made between clean and used transport boxes.

transparent seal
can be used with transport boxes
one-time use

## Rack trolleys

We have the right rack trolley for the 500 x 500 cleaning racks. These units make transporting and storing the racks a breeze.

**Material:** Stainless steel

max. 10 wash-up racks
for 500 x 500 wash-up racks
ext. dim. 638x630x1752mm
specific heights can be ordered
comes with a locking brake
lightweight design

## Trolley with drip tray

The practical trolley with four manoeuvrable 360° casters offers outstanding mobility and flexibility. Clean work processes are ensured by the removable drip pan. A push handle is also available as an option.

for 500 x 500 wash-up racks
wash-up racks can be stacked
removable drip pan
four swivel castors

## Rack cover

The rack cover facilitates the storage of reusable products by protecting them against dirt and dust and ensuring that clean cups and tableware are always ready to use immediately.

height: 1.60 m
